ENVOY™

BINGO CONSOLE

Tiny footprint. Big statement.

Meet the Envoy - a compact, budget-friendly bingo console that's perfect for smaller venues.

**Compact
Design**

**Budget-
Friendly**

**Simple
Operation**

**Advanced
Electronics**

**Superior
Technology**

**Capitol
Reliability**

Less really is more.

The idea behind the Envoy is simple: It's an affordable, compact, and easy to use bingo console designed for smaller venues such as senior centers & retirement homes.

Budget-Friendly

We know that smaller venues can be on tight budgets, and every penny counts. The Envoy was designed with just the essential features you need without breaking the bank.

Compact & Portable

Tight on space? No problem. The Envoy can fit in just about any venue. And with a cabinet that's only 23" in depth, it can fit through practically any doorway.

Plug and Play

The Envoy's software is preloaded with sample schedule, game, and pattern definitions, so you're ready to play right out of the box.

**Small ideas can
have a big impact.**

Calling a game has never been easier.

Touchscreen Interface

Navigate the Envoy's user-friendly software with ease on the 10.1" anti-glare LED touchscreen display.

Color-Coded Ball Tray

The ball tray features an innovative design with color-coded number rows to match the bingo balls.

Single Control Switch

A single, easily accessible switch controls the power to the blower motor & integrated LED lighting.

With the **Envoy**, everything is designed to work just the way you expect it to. It's easy to use, even if you've never called a game before.

OPERATING SYSTEM

Windows 10 Pro 64

PROCESSOR

Intel® Atom™ x5 Processor

MEMORY

4 GB RAM

INTERNAL STORAGE

64 GB Solid State Drive

DISPLAY

10.1" WXGA anti-glare WLED with capacitive multi-touch (1280 x800)

GRAPHICS

Intel® HD Graphics

WIRELESS TECHNOLOGY

Intel® Dual Band Wireless 802.11ac

Windows 10

The Envoy's preinstalled software was designed to run exclusively on the provided tablet using a custom Windows 10 operating system.

Solid-State Drive

Unlike PC-based consoles with a traditional hard drive, the Envoy uses a SSD, resulting in a reliable, faster, and more powerful system.

Powerful, cutting-edge, sophisticated, easy to use technology.

Wireless Printing

An optional report printer can be used by operators to wirelessly print detailed gaming schedules, payout reports, balls calls, etc.

Built-In Timer

The Envoy's built-in adjustable ball timer counts down the number of seconds between each call so the game pace can remain consistent.

Night Owl Schedule

Go Wild

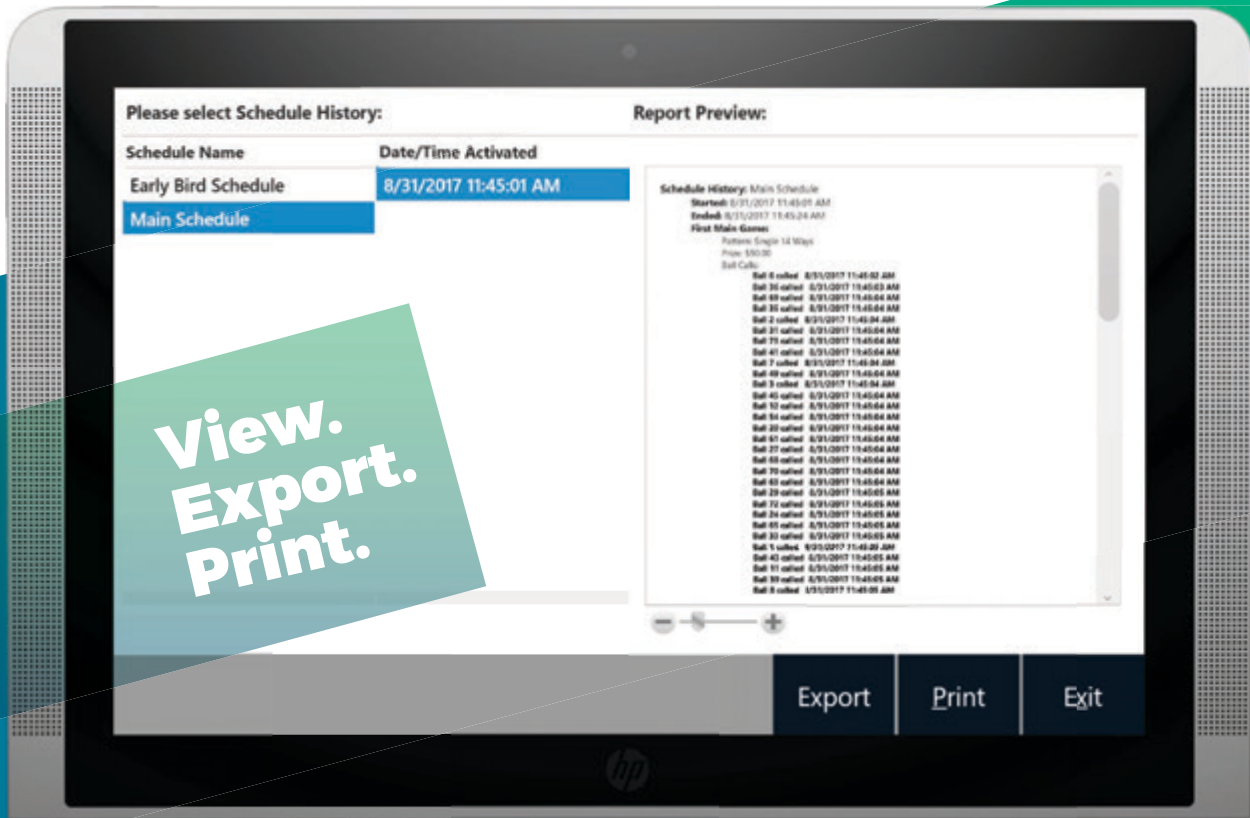

When it's time to step up your game, hit the **Wild** button to call multiple balls at the same time. Wild balls are great for Coverall games & other complex patterns.

Even Call all even balls	Trailing # Call all balls with the same last digit as the last called ball
Odd Call all odd balls	Leading # Call all balls with the same first digit as the last called ball
Even/Odd Ball Call all even/odd numbers based on the last digit of the last ball called	Double Reverse Call the ball with the reversed digits of the last ball called
Day Call the ball that matches the current day of the month	All in B/I/N/G/O Call all balls in the letter column of the last ball called

Flexible Pattern Options

Choose from hundreds of factory installed game patterns, or get creative with your own custom pattern designs.

Reporting made easy.

The Envoy automatically keeps track of all played schedules, games, and ball calls. Save reports on a USB flash drive or print them wirelessly (if available).

Take your venue to the next level.

Yeah, the Envoy was designed for occasional gaming at smaller venues. But that doesn't mean it can't deliver the essential features you need to step up your game.

Make your Envoy shine.

The Envoy is equipped with our latest Data Router III, so it's capable of driving all of our analog flashboards, just like those fancy, more expensive consoles.

Electronic Bingo? Yeah, Envoy can do that, too.*

*REQUIRES ADDITIONAL VERIFIER

The popularity of electronic bingo on the rise. When you're ready to add this experience to your venue, the Envoy will be ready, too.

FAQ

Can I use any type of bingo balls?

For the optimal anti-static operation, it is strongly recommended that only the included set of Tru-Max™ bingo balls be used with the Envoy bingo console.

Does the Envoy work with all Flashboards?

The Envoy is equipped with the latest state-of-the-art technology to support most existing analog flashboards.

Is a flashboard required to operate the Envoy?

No. The Envoy is fully capable of operating as a stand-alone console.

Does the Envoy come with a TV or monitor?

No. The Envoy was designed as a cost-effective solution for smaller venues. Operators can connect their own TV or monitor using an HDMI connection.

Can I play 90-number bingo with the Envoy?

No. The Envoy was designed strictly for 75-number bingo.

Does the Envoy Verify all bingo paper?

With the optional verification software, the Envoy will verify most standard paper.
